Product Line P&L | AI & Platform Products | Enterprise Scale | 5 Global Markets

Senior Product Manager with 10+ years spanning software engineering, strategy consulting, and product management. Promoted to Senior PM at Ford within 2 years — one of the youngest in the organization. Own a 4-product AI and analytics portfolio supporting \$5B+ in revenue across 5 global markets. Lead cross-functional teams of 40+ engineers, designers, and PMs. Track record: 12+ products shipped, \$3M+ in cost savings delivered, platforms adopted by 100+ teams globally.

Education

- MBA, Indian Institute of Management Kozhikode, 2017–2019
- B.E. in Computer Science, SSN College of Engineering, Chennai, 2010–2014

Experience

Aug '25 - Present Ford Motor Company

Product Line Manager – Service & Parts Analytics

- Own P&L for a 4-product analytics and AI portfolio (~40 engineers, PMs, designers) **supporting \$5B+ in annual parts & service revenue** across North America, Europe, and 3 additional global markets.
- Delivering **\$3M in annual cost savings** through platform modernization, AI automation, and value-chain efficiency improvements across the product line.
- Secured **\$5M in executive funding** to reimagine how 1,000+ dealers and Ford business users consume analytics — migrating from static monthly reports to dynamic, real-time dashboards.
- Launched a 0-to-1 AI-powered self-service platform enabling business teams to create their own Power BI dashboards — eliminating weeks of back-and-forth with analytics teams.
- Designed a "namesweep" capability linking fleet customer data to dealer invoices, **reducing service attrition by 10%** and expanding sales coverage through a new field specialist incentive model..

Sep '23 - Aug '25 Product Manager – Platform Engineering

- Built Ford's Universal Components Library (0-to-1) with 10 engineers and 7 designers — a React-based platform that cut webpage development time by 75%. Scaled from a Ford Credit **pilot to 100+ teams** across 11 BUs in one year. Now powers FordPro.com and Ford.com.
- Shipped an internal AI copilot for developers that generates production-ready webpages in under 2 minutes, **reducing** prototyping and implementation **effort by 80%**.
- Ran an end-to-end value chain assessment delivering **\$200K in savings** through license optimization. Sprint velocity +55%, cycle time -30%, developer issues -20% QoQ.

Jun '19 - Sep '23 Deloitte USI

Product Manager & Strategy Consultant – Digital Transformation

- Led development of an automated regulatory reporting product for major US banks — reduced manual compliance effort by 65%, delivering **\$250K in annual savings**.
- Launched a data-driven capability assessment product for Fortune 500 clients; scaled adoption **3x in 12 months** and used it as a strategic lever to cross-sell \$2M+ in consulting engagements.
- Assessed value streams across 4 subsidiaries of a leading US energy company; designed a consolidated operating model that **cut annual opex by 27%**.

Apr '18 - Jun '18 Unilever, Argentina (Internship)

Project Manager – P&L Forecasting

- Built and piloted a financial P&L forecasting tool for the LATAM market — reduced manual effort by 80%, improved forecast accuracy by 20%, and shaped the global rollout strategy.

Jul '14 - Jun '17 Cognizant Technology Solutions

Full Stack Developer & Tech Lead – Financial & Data Platforms

- Built a feature for Google Maps' internal "Atlas" developer tool improving map accuracy and reducing manual effort by 27%. Delivered the S&P Global Index platform (live: spice-indices.com) and optimized MetLife's data pipeline, improving application performance by **25%**.

Initiatives (AI & Leadership)

- AI Resource Intelligence Platform** - Built an AI-powered people management tool (360 feedback, Jira/GitHub performance metrics, AI-generated reviews). Saves managers 15-20 hrs. per review cycle.
- PM Operating System** - Created and drove adoption of a cross-org PM practice: quarterly newsletter, JIRA standards, metrics framework, monthly AI sessions, and Product Line Reviews. Now adopted across Ford.

Achievements

- 2025 **Ford 'Star Performer'** - 3 consecutive years (2023, 2024, 2025) for exceptional leadership and impact.
- 2025 **Ford Designathon Winner 2025** - Redesigned dealer-Ford application interaction; presented to directors, moved to implementation.
- 2022 **Deloitte 'Best Performer'** - 3 consecutive years (2020, 2021, 2022) for outstanding delivery.
